Professional Summary

Business Analyst with 5+ years in high-scale e-commerce marketplace analytics (Flipkart) and global B2B SaaS (Enverus), turning large multi-source datasets into the metrics, dashboards, and recommendations that drive growth and profitability. I track category, seller, and SKU performance — GMV, conversion, traffic, pricing, and in-stock — run cohort, trend, and regression-based forecasting, and translate insights into clear business narratives for category, marketing, and supply-chain partners. Proficient in SQL, Tableau, Power BI, and Advanced Excel with automated, AI-assisted reporting; I define and standardize KPIs, assess unit economics and margin, and identify levers (pricing, assortment, inventory, promotions) that improve performance. VIT engineering graduate, comfortable structuring ambiguous problems and influencing across a matrixed organization — currently serving notice and available to join at short notice.

Professional Experience

Flipkart

Jun 2024 – Present

Business Analyst — Large Appliances (eCommerce Marketplace)

- Track category, seller, and SKU performance — GMV, conversion, traffic, pricing, and in-stock — surfacing growth opportunities and performance gaps across the marketplace.
- Build and automate interactive Tableau / Power BI dashboards and reporting frameworks (SQL, Google Apps Script) that give leaders real-time visibility; define and standardize KPIs across teams.
- Run cohort, trend, and regression-based demand / sales forecasting; identify levers (pricing, assortment, inventory, promotions) and translate complex data into clear narratives for category, marketing, and supply-chain partners.
- Data-driven demand planning and promotion analysis drove a 55% category revenue uplift during Big Billion Days.

Enverus

Jan 2023 – May 2024

Business Analyst I — Market Research (B2B SaaS)

- Built and maintained Tableau / Power BI dashboards giving US-based commercial leaders real-time visibility into sales trends and KPIs, supporting ARR that scaled into the \$500MM range; assessed profitability and forecast inputs.
- Re-engineered reporting with Lean Six Sigma (20% faster), standardizing KPIs and improving reporting efficiency across global teams.

Enverus

May 2021 – Dec 2022

Associate — Commercial Intelligence

- Published quantitative research across 3 cycles and built financial / operational and unit-economics models; produced competitive intelligence to support leadership decisions.

Technology Risk Partners

Feb 2021 – May 2021

GRC Consultant — Intern

- Built Oracle Cloud reporting components and automated control testing to support UAT and compliance.

Sun Pharmaceutical Industries

Jun 2020 – Jan 2021
