Capacity Planning & Forecasting | KPI Ownership & Root-Cause Analysis | Vendor / Partner Accountability | Operations Leadership | Process Improvement (Lean Six Sigma) | SQL, Excel, Tableau

PROFESSIONAL SUMMARY

Planning and operations leader with 5+ years at Flipkart and Enverus owning **forecasts, capacity plans and KPI performance** across in-house teams and external sellers / vendors. I build demand and capacity models, anticipate risks before they hit service, run root-cause analysis when performance slips, and turn results into clear updates and trade-offs for leadership. Proven at driving measurable improvement across cross-functional teams (55% revenue uplift at peak, 20% faster cycle times), with strong analytical rigor in SQL, Excel and Tableau and a coaching, hands-on leadership style.

EXPERIENCE

Flipkart - Category Manager - Large Appliances | Jun 2024 - Sep 2026

Owned planning and performance for a large marketplace category - forecasts, supply / in-stock capacity and KPI outcomes across sellers, vendors and cross-functional teams.

- **Owned forecasting and capacity planning:** built regression-based demand and sales forecasts and translated them into supply and in-stock plans for peak events; data-driven planning drove a **55% category revenue uplift during Big Billion Days**.
- **Anticipated risks before peak:** tracked forecast vs. actuals and in-stock gaps, flagged shortfalls early and put mitigation plans in place with supply-chain and seller teams ahead of high-volume sale events.
- **Owned KPI performance and root-cause analysis** across GMV, conversion and in-stock; diagnosed drivers through cohort and SKU trend analysis (YoY & MoM) and led recovery actions, including exchange offers that grew category **revenue 19% YoY**.
- **Held sellers / vendors accountable** to commitments on selection, terms and availability; built the category plan within the **Annual Operating Plan (AOP)** using market research, lifting **Flipkart market-penetration share ~1%**.
- Built **user personas, funnel and cohort analysis** behind loyalty-coupon and region-specific bank-offer programs, driving a **20% improvement in conversion** and higher offer adoption in the South.
- **Improved planning tools:** built and automated **Tableau / Power BI dashboards and templates** (SQL, Google Apps Script) with standardized KPIs, giving leadership real-time visibility and replacing manual tracking.

Enverus - Business Analyst I - Market Research (B2B SaaS) | Jan 2023 - May 2024

- **Drove process and efficiency improvement:** re-engineered global reporting through **Lean Six Sigma**, cutting **cycle times 20%** and standardizing KPIs across teams in multiple regions.
- Built Tableau / Power BI performance reporting for US commercial leadership, supporting **ARR that scaled into the $500MM range**.

Associate - Commercial Intelligence | May 2021 - Dec 2022

- Built financial / operational and unit-economics models and published quantitative research across **3 cycles** for leadership decisions.
