UK SAVOURY SNACKS

Where PepsiCo grows next

Shopper & portfolio review, with a plan for Acadia Grocers

[Name] · [Date]

SUMMARY

There’s £107.8m of headroom in things PepsiCo already sells

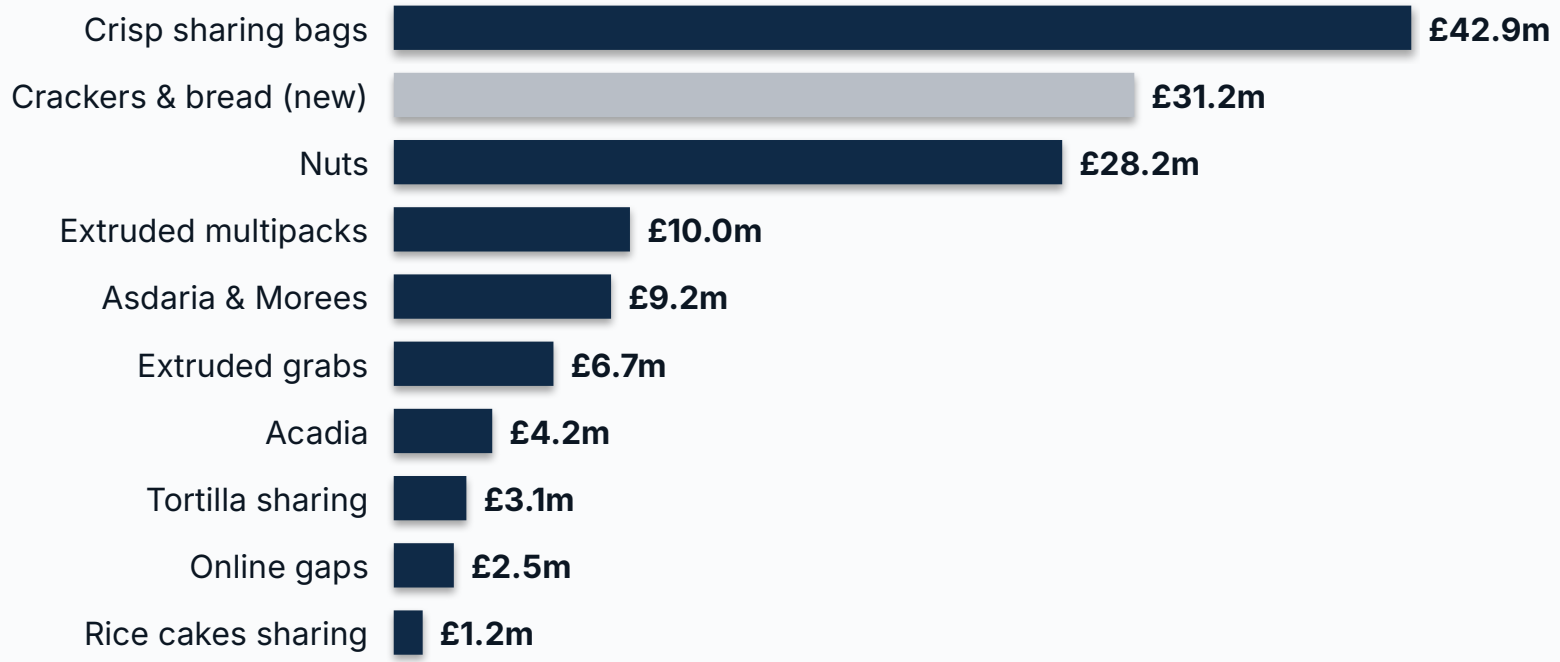

The market is growing, PepsiCo isn’t. Most of the fix sits in our existing brands, packs and customers.

−0.9 pts
PepsiCo share change

−£6.7m
PepsiCo at Asdaria

81.5%
of market growth is online

£42.9m
crisp sharing-bag gap

YEAR-1 PRIZE

£27.0m

if we capture 25% of the headroom
(range £16.2m–£37.7m)

What we do: Win sharing bags, fix extruded packs, recover Asdaria, then build nuts.

HOW WE LOOKED AT IT

Sales = shoppers × spend per shopper

Every recommendation either wins more shoppers (penetration) or gets them to spend more (AWOP).

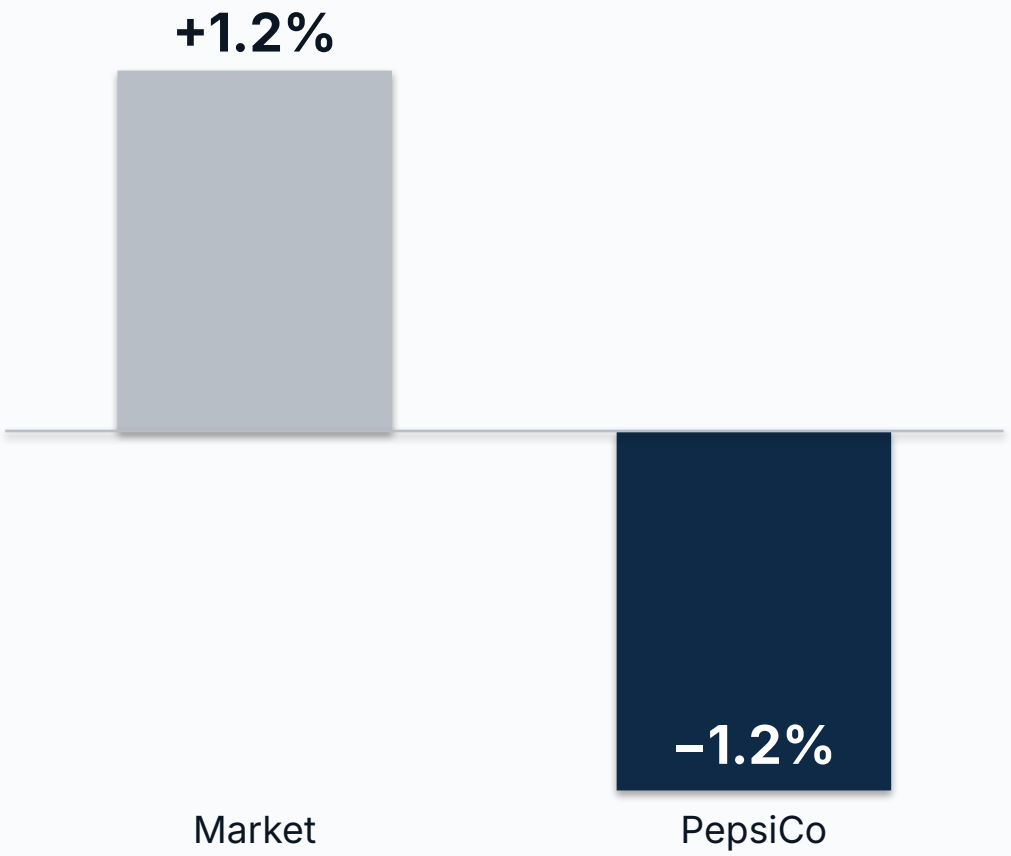

Q1	**Categories & brands**	Segment growth vs PepsiCo share; each brand vs its own segment
Q2	**Pack gaps**	Our share in each pack vs our share of that segment (fair share)
Q3	**Channel baskets**	Basket size and what's in it, online vs in-store
Q4	**Deals**	Who already buys both, so a deal can pull buyers across
→	**Acadia**	Acadia vs other online retailers

THE PROBLEM

The market grows; PepsiCo shrinks

Same 47 weeks, this year vs last year.

36.9%
PepsiCo share (−0.9 pts)

−£9.3m
sales lost to share decline

−£6.7m
PepsiCo at Asdaria: more than the whole decline

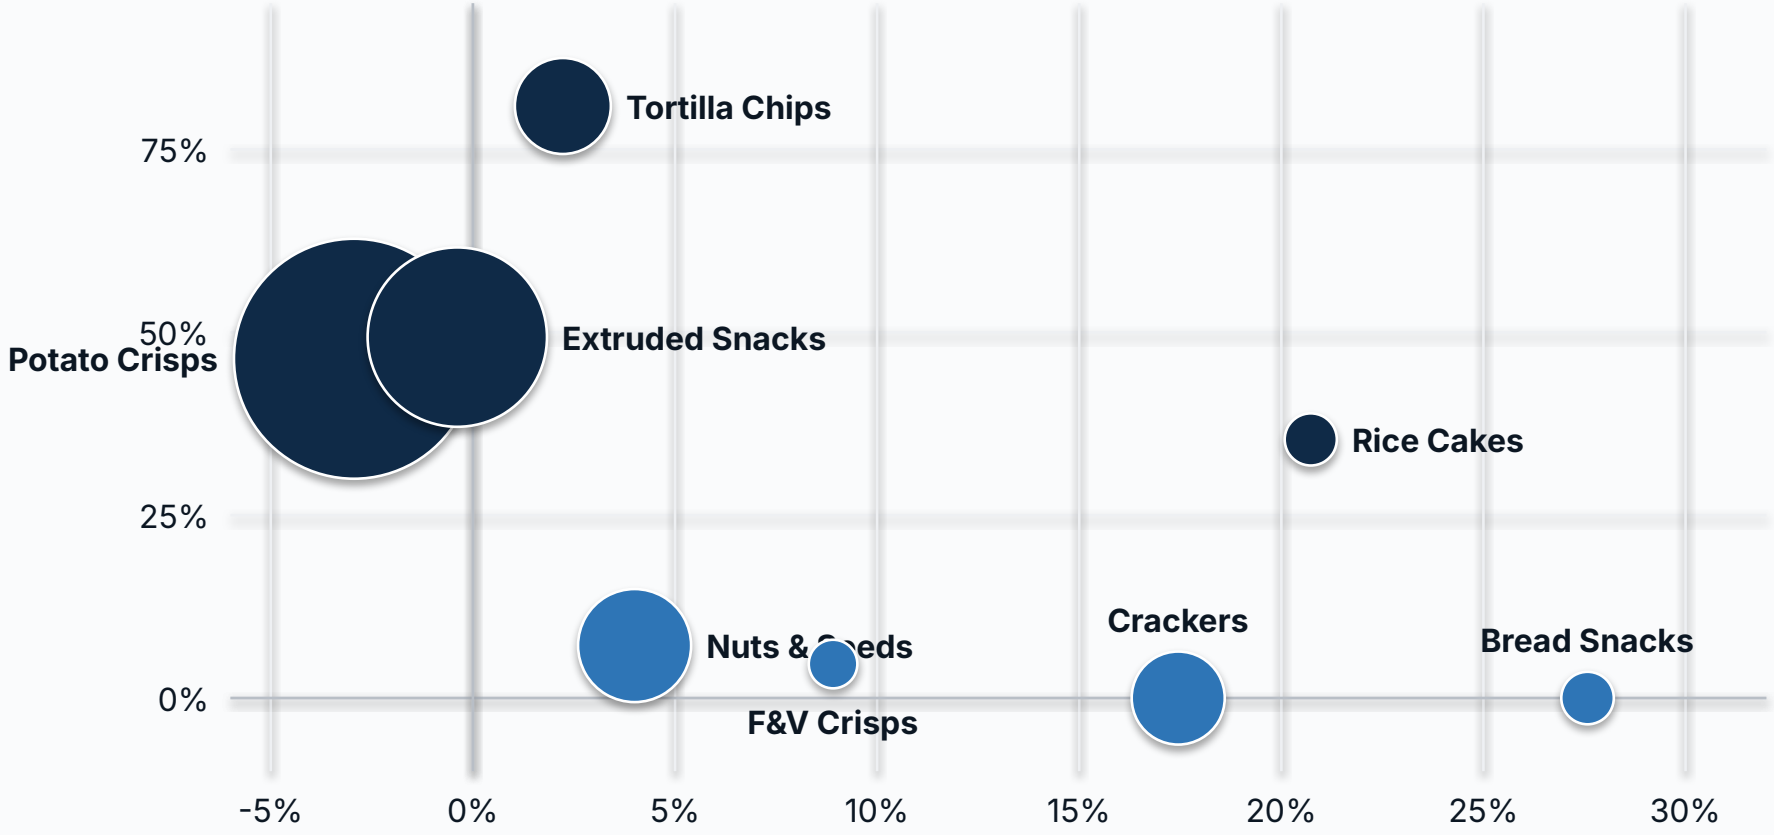

+£5.8m
PepsiCo at Escora: the bright spot

What we do: Stop the leak at Asdaria and Morees while we chase the growth.

Q1 · WHICH CATEGORIES DRIVE PENETRATION AND AWOP?

Grow spend in the core, recruit in growth

Big segments where we lead but sales are flat → AWOP. Growing segments where we're small → penetration.

- Crisps + Extruded: 61.7% of sales, flat, we hold ~47–49%
- Nuts +4.0% (we hold 7.2%); Rice cakes +20.7% (we lost 4.0 pts)
- Crackers & Bread +17–28%, we're not there

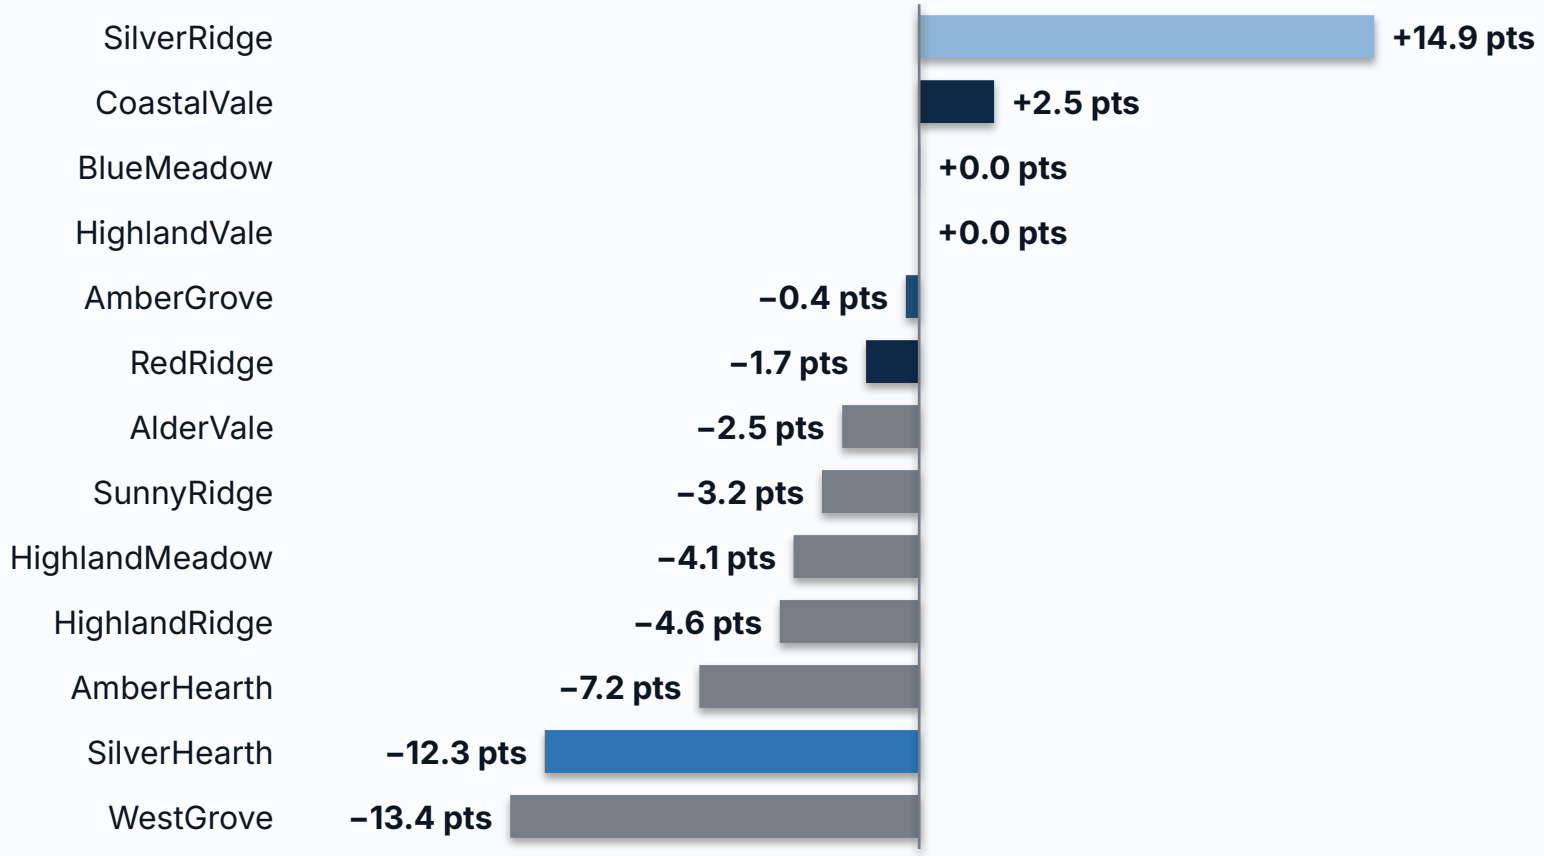

Across: segment growth % · Up: PepsiCo share % · Bubble: sales

What we do: Bigger packs and multipacks in crisps & extruded; recruit into nuts and rice cakes.

Q1 · WHICH BRANDS?

Fix 7 brands falling behind their segment; back the growers

Each brand's growth compared with its own segment's growth.

Grey = fix · Navy = grow spend · Light blue = scale · Blue = recruit

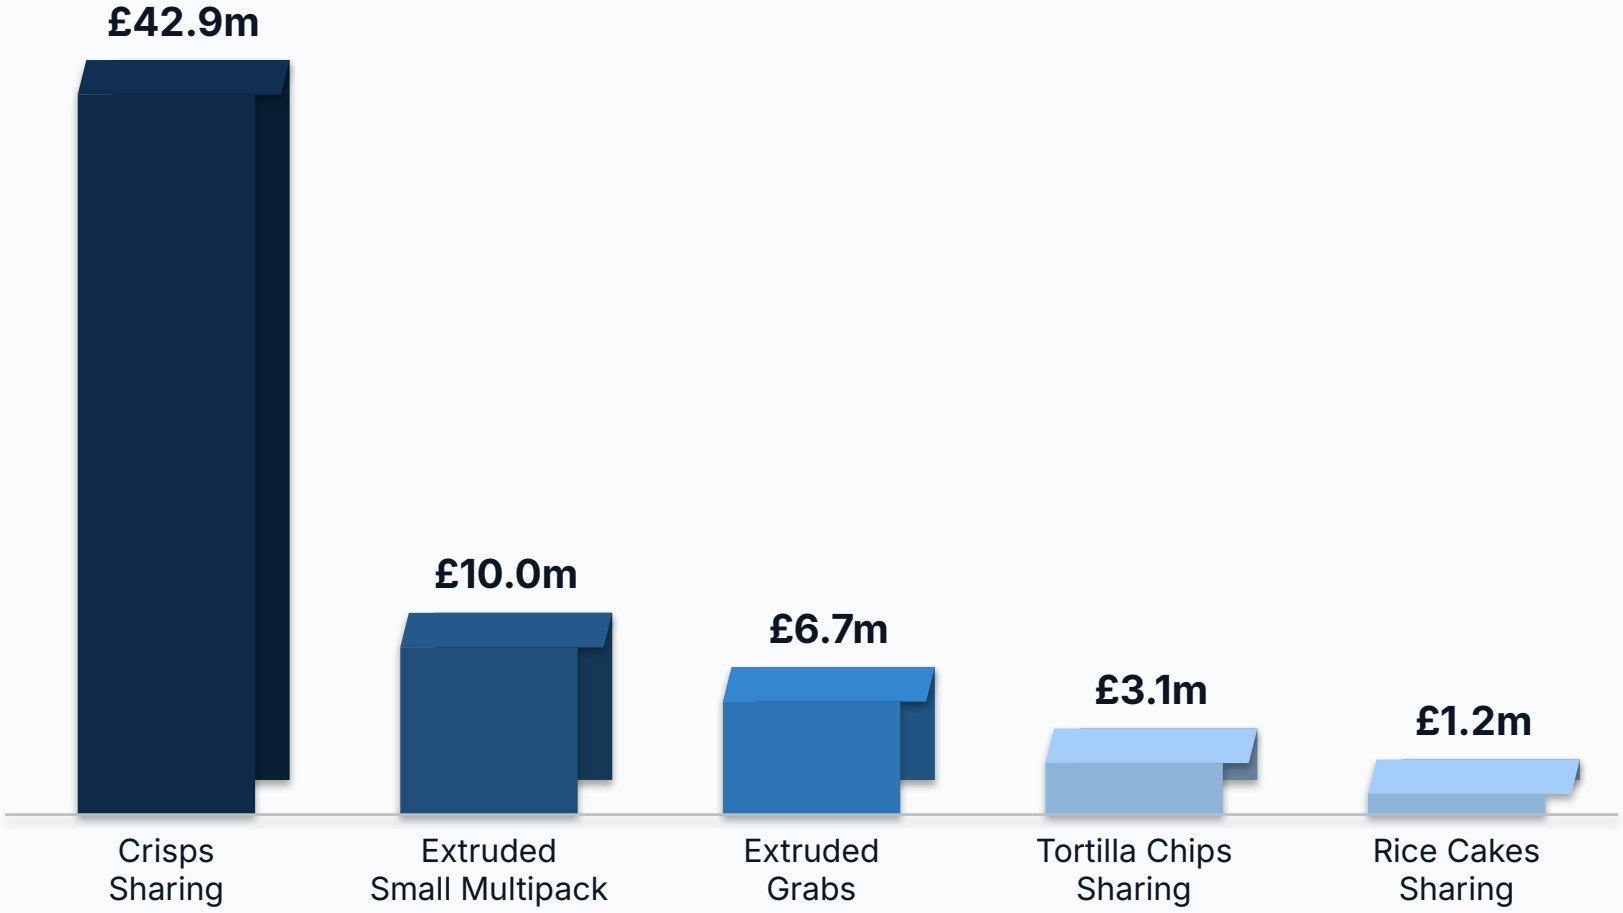

- 7 brands to fix, £131.0m of sales
- CoastalVale (£129.1m) beats crisps by 2.5 pts
- WildRidge +118.7%, SilverRidge +14.5%, HighlandVale +20.4%

What we do: Root-cause the 7 decliners; put distribution behind WildRidge, SilverRidge, HighlandVale.

Q2 · WHERE ARE THE PACK AND SUB-SEGMENT GAPS?

Crisp sharing bags are our biggest gap: £42.9m

If we hold 46.4% of crisps, we should hold close to that in every crisp pack. We hold 20.1% of crisp sharing bags.

37.8%
of the market is sharing bags

25.6%
PepsiCo share of sharing bags

+17.9%
PepsiCo price vs market

£16.7m
extruded multipacks + grabs

What we do: Fix sharing-bag price and pack size first; list extruded multipacks and grabs.

Q3 · HOW DO BASKETS DIFFER BY CHANNEL?

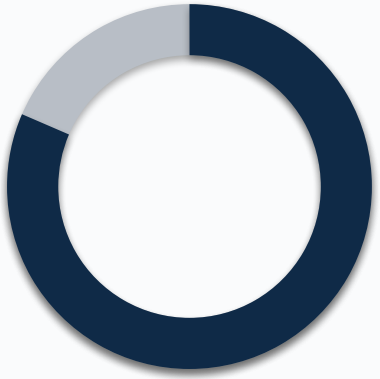

Online is a small share of sales but most of the growth

Online baskets are big, planned shops, and they hold more nuts & snacks.

17.0%
online of sales

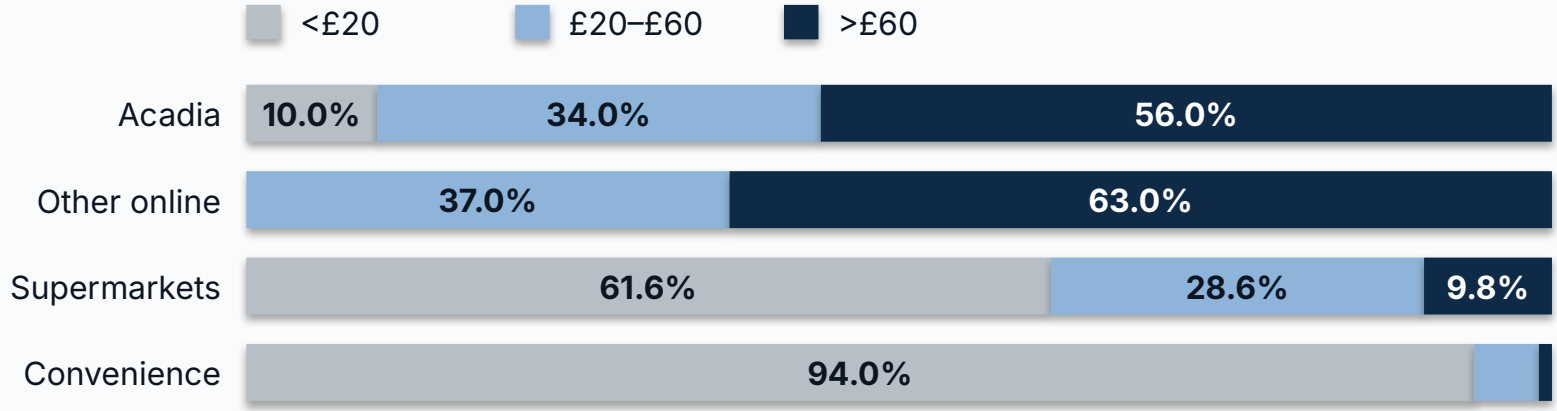

81.5%
online of growth

49.0% vs 23.0%
baskets with nuts & snacks

£4.2 vs £2.8
spend per nuts & snacks basket

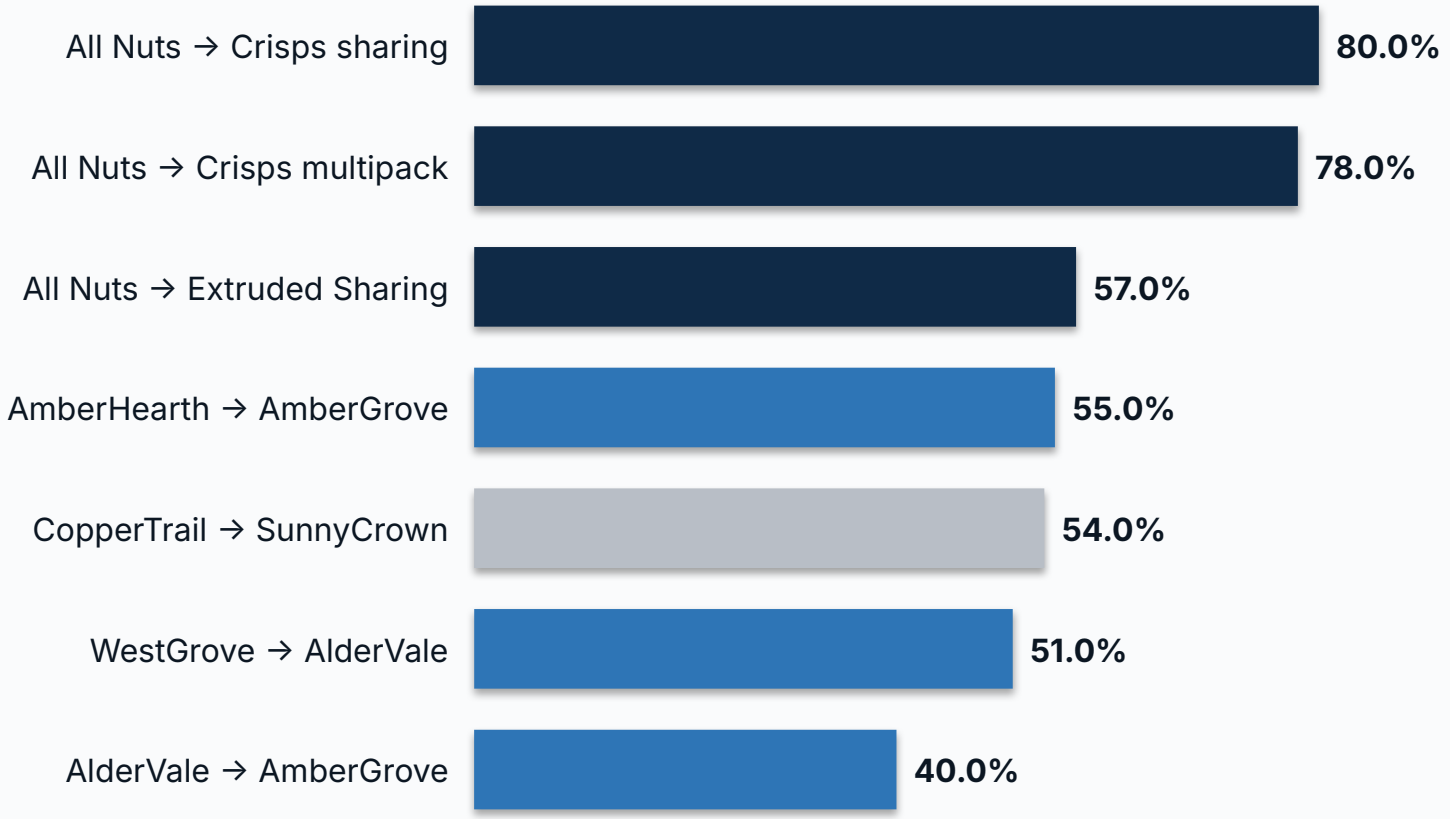

- 63.0% of online baskets are over £60
- 79.0% of online shoppers are on a main shop
- Acadia: 10.0% are quick top-ups under £20

What we do: Online: multipacks and bigger packs, win search. Acadia: add grabs for top-ups.

Q4 · WHERE CAN DEALS GROW THE CATEGORY?

Nuts + crisps: 8 in 10 nuts buyers already buy sharing crisps

If shoppers already buy two things together, a deal can pull them to our brand.

% of buyers who also bought · Navy = across categories · Blue = PepsiCo brands · Grey = competitor

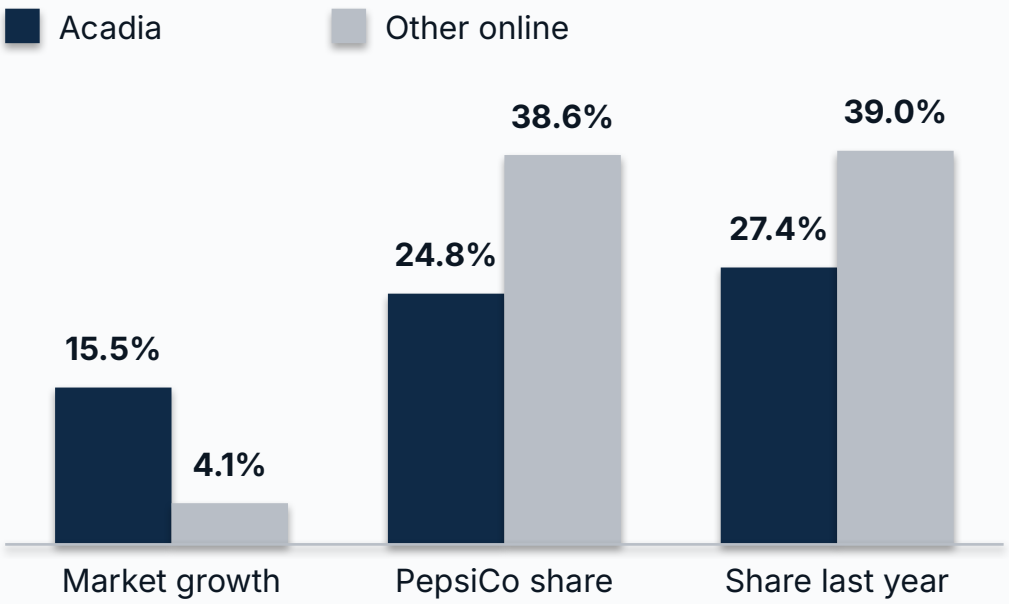

- We hold only 7.2% of nuts: the bundle brings nut buyers to us
- 40–55% already buy two PepsiCo brands
- Popcorn: 0.2% share and shrinking, so skip

What we do: Run a nuts + sharing-crisps bundle and mix-and-match across PepsiCo brands online.

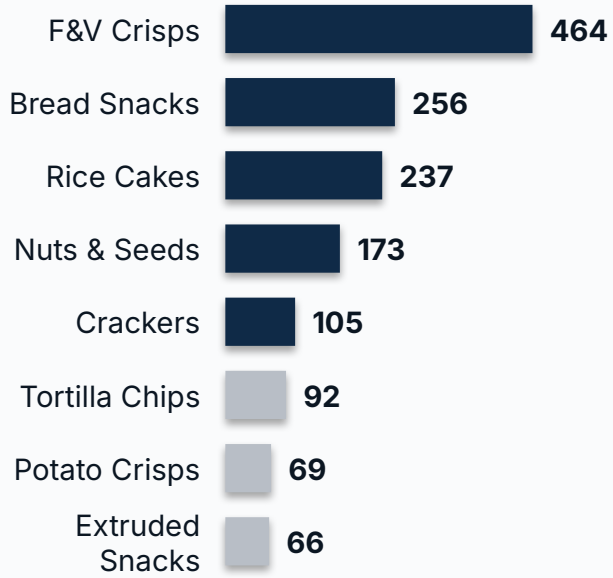

ACADIA GROCERS · WHAT SHOULD WE DO?

Acadia grows fast, but we're 13.7 pts behind

PepsiCo at Acadia vs PepsiCo at the other online retailers, same weeks.

Acadia mix vs other online (100 = same)

−2.6 pts
PepsiCo share in a year

43.0%
of Acadia sales are sharing bags

£4.2m
if we matched other online

1 Range
Tortilla & extruded sharing

2 Healthier
Rice cakes & nuts

3 Bundle
Nuts + crisps, 8 weeks

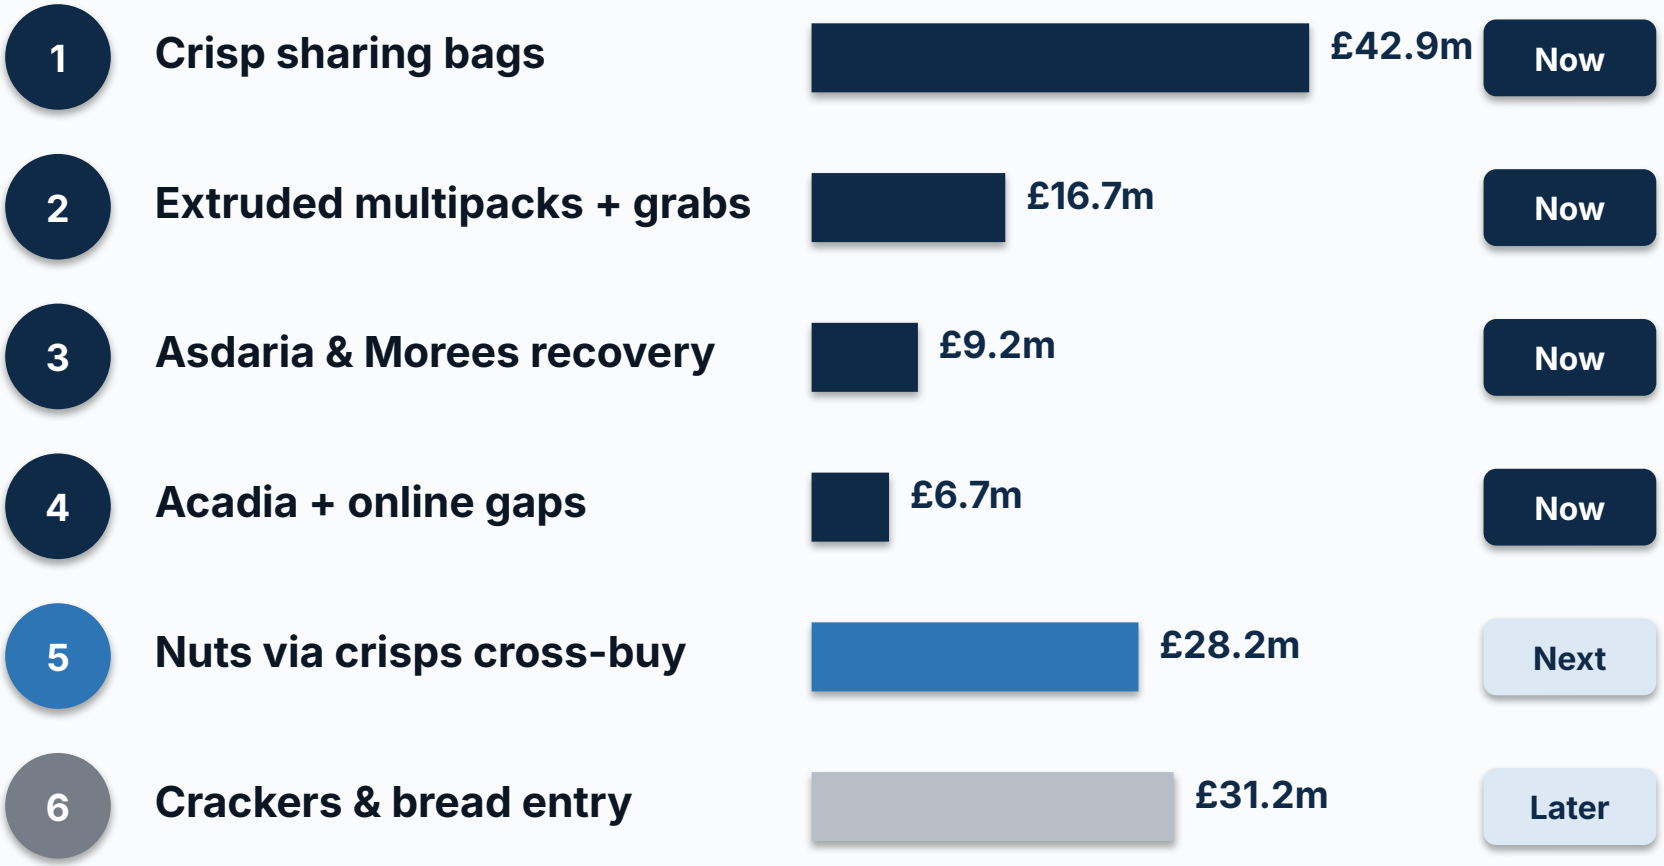

4 Search
Top slots for sharing bags

What we do: Start an 8-week Acadia pilot: range, healthier lines, nuts + crisps bundle, search.

RECOMMENDATIONS

Six moves, in the order I'd do them

Ranked by size of prize and how quickly we can act with brands we already have.

YEAR-1 PRIZE

£27.0m

at 25% capture

£16.2m at 15%

£37.7m at 35%

What we do: Approve the sharing-bag test, the Acadia pilot and an Asdaria recovery plan.

NEXT 90 DAYS

Test, read, then scale

Small pilots first; scale only what beats the control.

	Days 0–30	Days 31–60	Days 61–90
Crisp sharing	Price & pack design	Test in 2 retailers	
Extruded packs	Range review	Multipack & grabs listings	
Asdaria / Morees	Find the cause	Share recovery	
Acadia	Range & search audit	Nuts + crisps pilot	
Data	Get panel data		Crackers case

What we do: Track penetration, spend per buyer, share by pack and online share for every pilot.

ASSUMPTIONS

What the numbers rest on

Weeks 1–47

2025 vs 2024, like-for-like (2025 data ends at week 47)

Fair share

Our share of the segment is the bar for each pack

15–35%

Year-1 capture of the headroom; a planning range

No panel data

Penetration and AWOP are inferred, not measured
